Price Book Set Up Instructions

BSI's **Luxaire Home Comfort Flat Rate Installation Price Book** is designed to help our Luxaire Dealers outperform the competition with a “customized-to-your-business” replacement installation “*Upfront*” consumer pricing guide.

We designed the price book to be used by both *Comfort Advisors* on a replacement sales call or for the *Selling Technicians* on a service call where they have identified a replacement opportunity.

Formatted for Easy Upselling:

The proven price book format has proven to help you to easily upsell via the “good-better-best-premium” system consumer installation pricing options.

Easy 1-Page Price Book Set-up:

Located on this web page, as well as, at end of this demo price book you will find the 1-page Set-up/Order Form. On this Form you provide us your unique labor costs, gross profit margin, finance rates, and your local utility rates.

Set-up of Installation Cost-of-Goods-Sold:

You provide us your preferred equipment vendor pricing from your vendor which we import your actual costs for equipment, materials, and warranties by system type and size.

We multiply by your provided labor cost rates by the “built-in” installation labor hours for a Crew Chief and Helper to arrive at your *Total Installation Labor Cost*. You may modify the “built-in” labor hours for any system configuration by faxing us your changes via marked up *User Guide* pages also located on this www.GrowMyHVAC.com page.

Your Unique Installed Sell Price:

Your unique Installed Sell Price will be based on your provided gross profit margin rate.

Finance and Energy Savings Tables:

We provide finance and energy savings tables to help the Comfort Advisor to show consumer affordability of a system installation. We create your finance tables using your unique local finance options and national *Home Equity Rates*, *Personal Bank Loan Rates*. We create your energy savings tables using your provided local area utility rates.

Customizing Configurations:

If your configuration are different from or is missing any system type versus this demo price book, we provide three easy ways for you to quickly communicate your unique price book configuration requirements:

1. For minor modifications, simply print the demo book price pages and mark them up with your equipment component match-ups and desired warranty offering and fax them back to us.
2. For extensive modifications, we can send you an Excel spreadsheet as an email attachment that you email back to us with your unique equipment configuration component match-ups.
3. Or you can simply set up with us a telephone or on-line GoToMeeting workout session to assist in expediting setting up of your price book.

Configuration Options:

This price book may be modified to include any or all of these common residential HVAC replacement configurations:

- Split System Gas Heat
- Split System Electric Heat
